

# i'm a poet, and i know it!

Here's an example poem to show how this activity works.

The word "Black Bear" is written vertically, and then each letter is used to begin a separate line of the poem.

By myself I  
Listen to the forest  
And silence that  
Can ring like a chorus  
Keeping time with the

Beat of  
Each step of  
A black bear's feet  
Running through the  
Stream to cool the heat.
